PERGOLE & TENTE

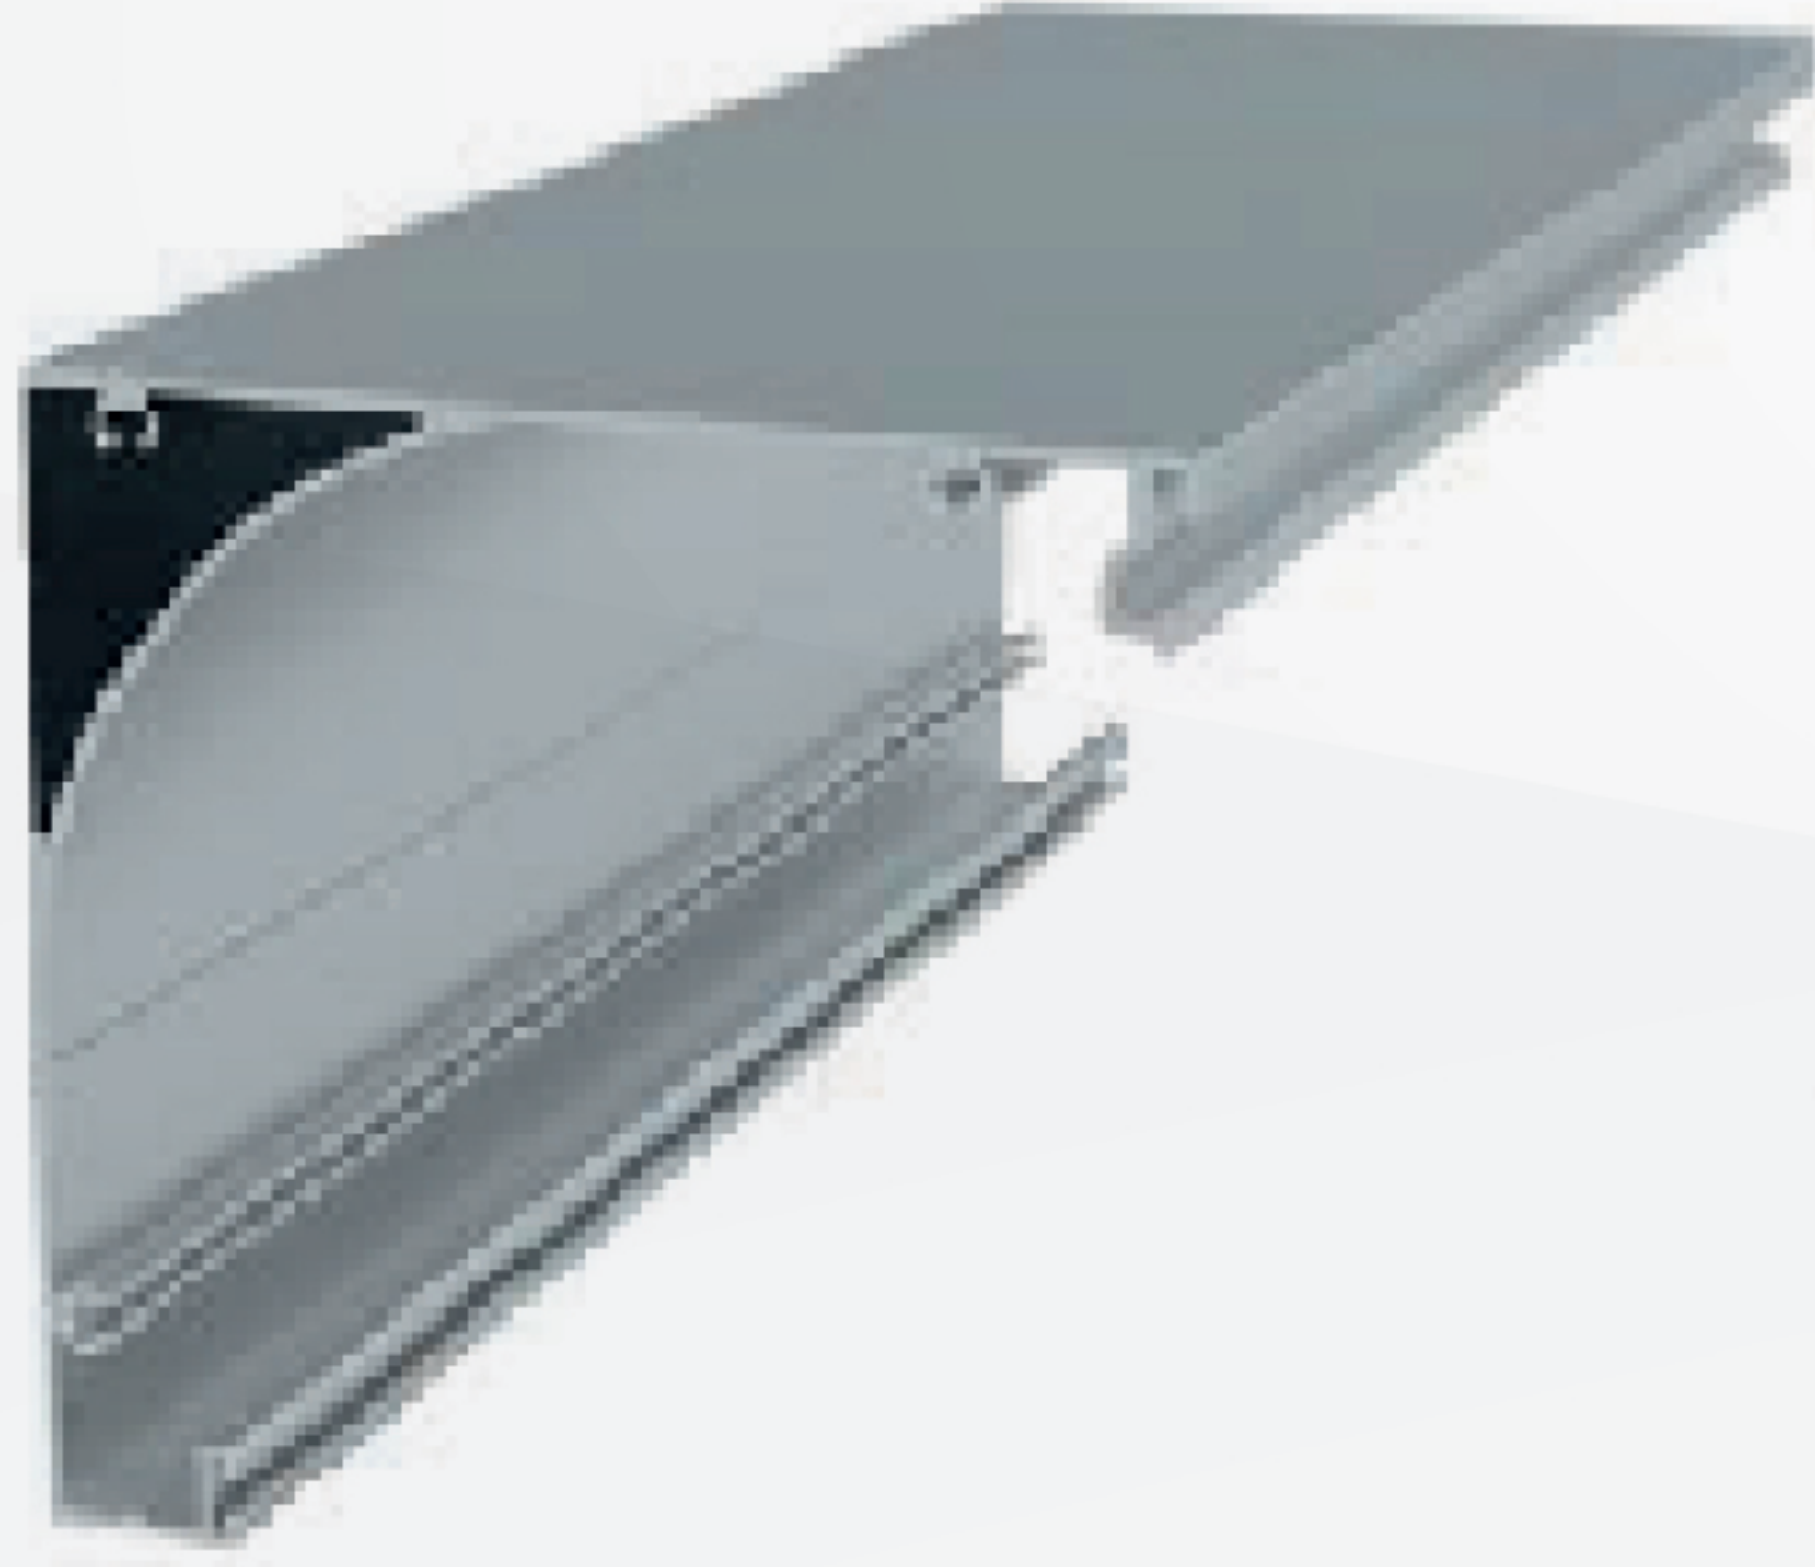

Zip perde sistemleri, dış mekanlarda güneş ışığından, sıcaklıktan ve hava koşullarından korunmak amacıyla kullanılan modern bir perde kaplama çözümüdür. Alüminyumdan yapılmış bir kasa, perdeyi saklamak ve korumak için kullanılır. Bu kasa genellikle estetik ve dayanıklılık açısından önemlidir. Alüminyum yan kanallar, perdenin yanlarda düzgün bir şekilde hareket etmesini sağlar ve rüzgarın altına sızmasını önler.

Zip screen systems are a modern shading solution used in outdoor areas to provide protection against sunlight, heat, and weather conditions. An aluminum cassette is used to store and protect the screen. This cassette is important for aesthetics and durability. Aluminum side channels allow the screen to move smoothly along the edges and prevent wind from getting underneath.
